March 7/36

Dear Prof. Carpio— Your
letter of Feb. 18 has just
reached me here.
It is manifestly im-
possible for me to give
you any worthwhile ac-
count of my life activities, they
have been too many.
I presume that the
magazine, "Engineering
News-Record"- published
weekly at 330 W 42nd St
New York— reaches Manila.
If so you will find a
Series of Articles- beginning
with an issue of March

1935

~~1934~~ – Written by myself – called, "An Engineers Recollections" which will give you a fair idea of some of my activities.

I enclose a sample of my autograph as requested.

Truly Yrs.
